

Did you know?

Every 3rd bite of food you eat is the result of a living pollinator.

Insect pollinated crops directly contribute \$20 billion to the U.S. Economy each year!

90% of all plant species need the help of insect and animal pollinators.

Pollinator populations are in decline due to loss of habitat and disease

The Day's Events will run from 10 am to Noon.

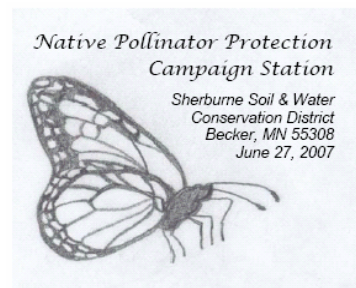

USDA's role in pollinator protection, William Hunt—State Conservationist for the USDA-Natural Resources Conservation Service

What people can do for pollinators, Roger Olson—Local Beekeeper & Honey Producer
